SKILLS

PROGRAMING LANGAUGES

- CORE JAVA 8 • JAVASCRIPT
- PYTHON • TYPESCRIPT
- MULTI THREADING
- ASYNCHRONOUS PROGRAMMING

FRONT END

- HTML 5 • CSS 3 • BOOTSTRAP 4
- JAVASCRIPT ECMA 6 • PROMISES
- JQUERY • AJAX • ANGULAR 7+

BACK END

- JAVA SPRING • SERVLETS • JSP
- DATA JPA • JDBC • HIBERNATE
- OAUTH 2 • SPRING MVC • JWT
- REST API • SPRING BOOT • GIT
- SQLALCHEMY • FLASK • NODE.JS
- MONGODB • MULTI-THREADING
- ASYNCHRONOUS PROGRAMMING
- SPRING SECURITY • JSTL

DATABASES

- AWS- S3, RDS • MYSQL •SQLITE
- POSTGRES • H2 • MONGODB

FAMILIAR WITH

- AWS - EC2, ELASTIC BEANSTALK
- AGILE • DOCKER • JIRA • JENKINS
- JUNIT • MOCKITO

PROFILE

- Familiar with complete Software Development Life Cycle and Agile Development Methodologies
- Trained in Complete Angular and Spring MVC Web Frameworks
- Experience in designing Rest API using Java Spring Boot, Spring MVC, Data JPA, Hibernate, Jersey, Spring Security.
- Experience in using Angular UI Framework to develop highly scalable and secure Single page Apps with Authentication and Authorization (JWT, Oauth)
- Experience in RDBMS like MySQL, MSSQL, Postgres and NRDMS such as MongoDB and Object relation Mappers such as (Hibernate, SQLAlchemy)
- Good understanding of Devops process (Jira, Jenkins for Continuous Integration and Continuous Delivery)
- Good understanding of Network Protocols and Sockets

EXPERIENCE

WHOWHATWHY | SENIOR DEVELOPER

Apr 2020 – Present | New York, NY

- Working on Developing intranet Portals as a web Platform for the team to collaborate and share Resources within the organization

PROJECTS

TERRAGON | MEMBER OF LEAN STARTUP PITCH TEAM

Feb 2019 – May 2019 | Newark, NJ

- Our team won Grant from NSF I-CORPS based on our "Lean Business" model Canvas pitch which was a part of our Lean Startup course
- Led Customer Discovery and Idea Validation process to test and validate Problem and Solution with around 100 Customers by the End of the Course
- Developed SPA using Angular Forms, Spring Boot, Hibernate, Oauth
Technologies Used: Angular 8, Bootstrap4, jQuery, Spring Data JPA, Spring Rest Repositories, MySQL, Spring Security

E-COMMERCE BOOK STORE

Apr 2020 – Present | Newark, NJ

- Developed a Single Page E-commerce Web Application for Books using Spring boot for Back-end and Angular 8 for Front-end
- Used Spring Web framework to create RESTFUL API gateways that interacts with MySQL database using Spring Boot Web, Spring DATA JPA, Spring Rest Repositories and Spring MVC .
- Used Bootstrap 4 and angular 8 for UI design to render data from API gateways and perform CRUD operations on the Database using Spring boot JPA ORM and Git for Version Control
Technologies Used: Eclipse, VS code, Java 8, Angular 8, Spring boot Web framework, Bootstrap 4, Hmtl5, CSS3, Git

COURSEWORK

GRADUATE

Software Prod. Methodologies
Advanced Algorithm Design
Data Analytics With R lang
Advanced Database Design
Cloud Computing
Internet and High Level Protocols
Data Mining
Object oriented Programming
Cryptography and Security
Lean Startup

UNDERGRADUATE

Intro to Data Structures
Analysis of Algorithms
Computer Architecture
Logic Design
System Software
Machine Learning
Artificial Intelligence
Computer Networks
Java Programming
Programming in C
Programming in C++
C# AND ASP.NET
Web Development
System Testing
Advance Database Design
Unix Programming
Data Communications

LANGUAGES

English
Telugu
Hindi

PROJECTS (CONTINUATION)

SOCIAL MEDIA RECOMMENDATION ENGINE

Nov 2019 - Dec 2019 | Newark, NJ

- Finds all Strongly and weakly Connected Components , Isolated Nodes, top 100 Influencers from a Directed and Undirected social media graph data .
- Includes Recommendation Engine that determines the number of paths/walks possible between two Persons
Technologies Used : Python, jupyter notebook, DFS Algorithm, Kosaraju algorithm
Datasets Used: [Stanford large social network data sets](#)
SOURCE CODE: [Social Recommendation Engine](#)

COLLEGE DATABASE Oct 2018 – Dec 2018 | Newark, NJ

- Designed and Developed the relational database management systems (RDBMS) schema and constraints, drawn Entity Diagram
- creating DDL commands, DML commands and TCL
- Integrated SQL database constraints such as Referential integrity, Null, default, check and Unique
- Developed SQL, PL/SQL with Stored Procedures to interact with Persistent database using MySQL.
Technologies Used: MySQL, MySQL Workbench

HOME AUTOMATION USING RASPBERRY PI | TEAM MODERATOR

Sept 2018 – Dec 2018 | Newark, NJ

- Collaborated with 2 electronics students and Created Home Automation System that is easy to set up and maintain using E-mail Protocols to control various Appliances with Raspberry pi Micro Controller
- Created a Flask-Twilio API Web Server using Python to send instructions and receive acknowledgements from Raspberry pi Server via Cellular messages and E-mails.
Technologies Used: Python, Flask, ngrok, Flask-Twilio API, Ubuntu
SOURCE CODE: [Home Automation](#)

JOURNAL WEB SCRAPING Nov 2019 – Dec 2019 | Newark, NJ

- Retrieves all articles present in the journal and downloads it as a file with following columns: Article Name, Authors, Content Type, Abstract, DOI, Link, Full Paper from the following journal
Genomebiology.biomedcentral.com
Technologies Used: R Lang , Rvest (R library for scraping Web Data)
SOURCE CODE: [Web Scraper](#)

MARKET BASKET ANALYSIS

Oct 2019 – Nov 2019 | Newark, NJ

- Determine buying habits of customers using Apriori Algorithm Knowledge analysis in Python which is a type of frequent item-set mining by finding Associations between different items when given a set of transaction data
Technologies Used: Python, Apriori Algorithm (Data Mining)
SOURCE CODE: [Analyse Buying Habits](#)
